300 Booth St., Room 2070
Reno, NV 89509

Dear Chris,

The Lincoln County Conservation District held our most recent Local Work Group (LWG) meeting on December 3, 2024. We had a broad representation of partners present and were glad to have Jamie Gottlieb and Ari Delara of NRCS with us to provide excellent input and answer questions.

The LWG recommended to keep the resource concerns the same as before and request that they be applied to the ranking of the local funding pool as considered by the State Technical Advisory Committee (STAC).

1. Livestock and Wildlife Water Availability – Inadequate Distribution
2. Invasive Species including Plant Pests, Weeds and Aquatics
3. Degraded Plant Condition – Undesirable Productivity and Health
4. Human Concerns
5. Habitat Degradation and Loss and Organic Matter Depletion

We are excited to support work being done by NRCS Nevada to improve the LWG – STAC connection and make the ranking tool more adapted to local resource concerns and issues. Thank you for the energy and expertise being put toward this effort.

Sincerely,

A handwritten signature in cursive script that reads "Kelly Miller".

Kelly Miller

Chair, Lincoln County Conservation District
