Resource Concern Categories

Categories			
Category	Min %	Default %	Max %
Air (Air quality emissions)	0	3	100
Animals (Aquatic habitat)	0	5	100
Animals (Livestock production limitation)	0	12	100
Animals (Terrestrial habitat)	0	9	100
Energy (Inefficient energy use)	0	2	100
Plants (Degraded plant condition)	0	5	100
Plants (Pest pressure)	0	5	100
Soil (Concentrated erosion)	0	5	100
Soil (Soil quality limitations)	0	13	100
Soil (Wind and water erosion)	0	13	100
Water (Field pesticide loss)	0	5	100
Water (Field sediment, nutrient and pathogen loss)	0	10	100
Water (Source water depletion)	0	9	100
Water (Storage and handling of pollutants)	0	2	100
Water (Weather resilience)	0	2	100

Air (Air quality emissions)

Resource Concern	Min %	Default %	Max %
Air Quality (Emissions of airborne reactive nitrogen)	0	20	100
Air Quality (Emissions of greenhouse gases - GHGs)	0	20	100
Air Quality (Emissions of ozone precursors)	0	20	100
Air Quality (Emissions of particulate matter (PM) and PM precursors)	0	20	100
Air Quality (Objectionable odor)	0	20	100

Animals (Aquatic habitat)

Resource Concern	Min %	Default %	Max %
Aquatic Habitat (Aquatic habitat for fish and other organisms)	0	50	100
Aquatic Habitat (Elevated water temperature)	0	50	100

Animals (Livestock production limitation)

Resource Concern	Min %	Default %	Max %
Livestock Health (Feed and forage balance)	0	40	100
Livestock Health (Inadequate livestock shelter)	0	20	100
Livestock Health (Inadequate livestock water quantity, quality and distribution)	0	40	100

Animals (Terrestrial habitat)

Resource Concern	Min %	Default %	Max %
Terrestrial Habitat (Terrestrial habitat for wildlife and invertebrates)	0	100	100

Energy (Inefficient energy use)

Resource Concern	Min %	Default %	Max %
Energy Use (Energy efficiency of equipment and facilities)	0	50	100
Energy Use (Energy efficiency of farming/ranching practices and field operations)	0	50	100

Plants (Degraded plant condition)

Resource Concern	Min %	Default %	Max %
Plant Health (Plant productivity and health)	0	50	100
Plant Health (Plant structure and composition)	0	50	100

Plants (Pest pressure)

Resource Concern	Min %	Default %	Max %
Plant Health (Plant pest pressure)	0	100	100

Soil (Concentrated erosion)

Resource Concern	Min %	Default %	Max %
Soil Erosion (Bank erosion from streams, shorelines or water conveyance channels)	0	20	100
Soil Erosion (Classic gully erosion)	0	30	100
Soil Erosion (Ephemeral gully erosion)	0	50	100

Soil (Soil quality limitations)

Resource Concern	Min %	Default %	Max %
Soil Health (Aggregate instability)	0	25	100
Soil Health (Compaction)	0	25	100
Soil Health (Organic matter depletion)	0	25	100
Soil Health (Soil organism habitat loss or degradation)	0	25	100

Soil (Wind and water erosion)

Resource Concern	Min %	Default %	Max %
Soil Erosion (Sheet and rill erosion)	0	60	100
Soil Erosion (Wind erosion)	0	40	100

Water (Field pesticide loss)

Resource Concern	Min %	Default %	Max %
Water Quality (Pesticides transported to groundwater)	0	50	100
Water Quality (Pesticides transported to surface water)	0	50	100

Water (Field sediment, nutrient and pathogen loss)

Resource Concern	Min %	Default %	Max %
Water Quality (Nutrients transported to groundwater)	0	35	100
Water Quality (Nutrients transported to surface water)	0	35	100
Water Quality (Pathogens and chemicals from manure, biosolids or compost applications transported to groundwater)	0	5	100
Water Quality (Pathogens and chemicals from manure, biosolids or compost applications transported to surface water)	0	5	100
Water Quality (Sediment transported to surface water)	0	20	100

Water (Source water depletion)

Resource Concern	Min %	Default %	Max %
Water Quantity (Groundwater depletion)	0	45	100
Water Quantity (Inefficient irrigation water use)	0	10	100
Water Quantity (Surface water depletion)	0	45	100

Water (Storage and handling of pollutants)

Resource Concern	Min %	Default %	Max %
Water Quality (Nutrients transported to groundwater)	0	40	100
Water Quality (Nutrients transported to surface water)	0	40	100
Water Quality (Petroleum, heavy metals and other pollutants transported to groundwater)	0	10	100
Water Quality (Petroleum, heavy metals and other pollutants transported to surface water)	0	10	100

Water (Weather resilience)

Resource Concern	Min %	Default %	Max %
Water Quantity (Drifted snow)	0	10	100
Water Quantity (Naturally available moisture use)	0	20	100
Water Quantity (Ponding and flooding)	0	30	100
Water Quantity (Seasonal high water table)	0	20	100
Water Quantity (Seeps)	0	20	100

Practices

Practice Name	Practice Code	Practice Narratives	Practice Type

Survey: Program Questions

Section: General Program Questions

Question	Answer Choices	Points
The application is at least 50% within an identified local priority watershed (Geospatial answer layer: Iowa - Local Priority FY2026)	The application is at least 50% within an identified local priority watershed.	10
	No	0
Does the applicant meet the NRCS definition of a veteran farmer?	YES	2
	NO	0
Did the applicant participate in the CRP Transition Incentives Program (TIP), and has the land in the EQIP application come out of CRP within the last 2 years?	YES	2
	NO	0
CROPLAND: Does the application include practices or activities on Cropland?	YES	--
	NO	--
CROPLAND: The intended treatment in this application supports soil health principles. How many of the following soil health practices, are scheduled as new activities: 1) 340-Cover Crop, 2) 329-Residue and Tillage Management, No Till, 3) 328-Conservation Crop Rotation, 4) 590-Nutrient Management, 5) 595-Pest Management Conservation System, 528-Grazing Management?*	5+ practices	15
	3 - 4 practices	10
	1 - 2 practices	5
	None of the practices listed.	0

Section: General Program Questions

Question	Answer Choices	Points
CROPLAND: Is the application for practices that, when combined with other conservation practices in the applicants conservation plan, treat the soil resource concern to the quality criteria?*	YES	10
	NO	0
FORESTLAND: Does the application include conservation practices on Forestland?	YES	--
	NO	--
FORESTLAND: Does the application include practices with the intended purpose of controlling or suppressing invasive plant species?*	YES	10
	NO	0
FORESTLAND: Does the application include practices that prioritize the establishment of oak regeneration?*	YES	20
	NO	0
FORESTLAND: Does the application include tree plantings on a total of at least one acre?*	YES	10
	NO	0
PASTURE: Does the application include pastureland or cropland converted to pasture for livestock production, where the funds are predominantly used to implement non-AFO livestock practices?	YES	--
	NO	--
PASTURE: Does the EQIP application include implementation of 528 grazing management on all grazed lands included in the application?*	YES	12
	NO	0
PASTURE: Does the EQIP schedule of operations include implementation 528 grazing management for multiple years on the same acres?*	YES	7
	NO	0
PASTURE: Does the EQIP schedule of operations include implementation of practices to ensure adequate domestic livestock drinking water distribution are available in the application area?*	YES	8
	NO	0
PASTURE: How many of the following practices, are scheduled as new activities on the pasture acres: 1) 314 Brush Management or 315-Herbaceous Weed Control, 2) 472- Access Control, 3) 512-Pasture and Hay Planting, 4) 614-Watering Facility, 5) 528 Grazing Management, 6) 810-Annual Forages for Grazing Management?*	5+ practices	13
	3 - 4 practices	10
	1 - 2 practices	5
	None of the practices listed	0
WILDLIFE: Does the application predominantly include practices to improve wildlife habitat?	YES	5
	NO	0
WILDLIFE: The land in this application has the following wildlife habitat priority (Geospatial answer).*	High	13
	Low	8
	None	0
WILDLIFE: The application includes two or more wildlife practices. *	YES	5
	NO	0
WILDLIFE: The application includes practices that retain or improve wildlife habitat on land touching Conservation Reserve Program (existing or recently accepted for enrollment in CRP), to protected land (Easements, Iowa DNR, USFWS, TNC, etc.) that has wildlife habitat, or on land exiting CRP.*	YES	5
	NO	0
WILDLIFE: Does the EQIP application include practices with the intent of increasing habitat for pollinators, beneficial insects, or both.*	YES	5
	NO	0
WILDLIFE: Does your application include practices specific for prairie pothole renewals?*	YES	--
	NO	--

Section: General Program Questions

Question	Answer Choices	Points
WILDLIFE: Does your prairie pothole renewal application require additional practices beyond 644-Wetland Wildlife Habitat Management?*	YES	7
	NO	0

Section: Animal Feeding Operations Program Questions*

Question	Answer Choices	Points
Is the land being offered for enrollment used for livestock production, where funds are only used to implement AFO livestock practices. (AFO applications should be a separate application and ranked separately.) If answer is NO, uncheck Animal Feeding Operations from Category selection.	YES	--
	NO	--

Section: CPA DIA CEMA Program Questions*

Question	Answer Choices	Points
The application includes a Conservation Planning Activity (CPA), Design and Implementation Activity (DIA) and/or Conservation Evaluation and Monitoring Activity (CEMA)?	YES	--
	NO	--

Section: High Tunnel Program Questions*

Question	Answer Choices	Points
Is the application for High Tunnel and directly supporting practices only? If answer is NO, uncheck High Tunnel from category selection.	YES	--
	NO	--

Section: MRBI Program Questions*

Question	Answer Choices	Points
Does the PLU intersect the MRBI national layer of implementation watersheds by 50% or greater.	Yes	5
	No	0
The application addresses one or more of the identified goals in the watershed assessment plan for this MRBI project. If answer is NO, uncheck MRBI from Category selection.*	YES	--
	NO	--

Section: NWQI Program Questions*

Question	Answer Choices	Points
Does the PLU intersect the NWQI national layer of watersheds by 50% or greater. (Geospatial answer; Layer: Iowa -NWQI)	Yes	5
	No	0
Does the application addresses one or more of the identified goals in the watershed assessment plan for this NWQI project? If answer is NO, uncheck NWQI from Category selection.*	YES	--
	NO	--

Section: Regenerative Pilot Program Questions*

Question	Answer Choices	Points
----------	----------------	--------

Section: Regenerative Pilot Program Questions*

Question	Answer Choices	Points
The applicant will develop a whole farm plan and include soil testing by planning CEMA 216 in the first and land year of the contract. *	YES	--
	NO	--

Section: Source Water Protection Program Questions*

Question	Answer Choices	Points
Is the land being offered for enrollment in one of the priority watershed categories (i.e., Surface Water Priority, Ground Water High Priority or Ground Water Eligible/ Low Priority), where funds are predominately used to implement SWP priority practices?*	YES	--
	NO	--
The application is within the "Ground Water High Priority" Iowa Source Water Protection (SWP) Area. The answer is NO, uncheck Source Water Protection from Category selection. (geospatially answered)*	Ground Water High Priority	3
	No	0
The application is within the "Surface Water Priority" Iowa Source Water Protection (SWP) Area. The answer is NO, uncheck Source Water Protection from Category selection. (geospatially answered)*	Surface Water Priority	3
	No	0
The application is within the "Ground Water Eligible or Low Priority" Iowa Source Water Protection (SWP) Area. The answer is NO, uncheck Source Water Protection from Category selection. (geospatially answered)*	Ground Water Eligible or Low Priority	0
	No	0

Section: Specialty Agriculture and Small Scale Livestock Program Questions*

Question	Answer Choices	Points
Is the application for Specialty Agriculture and Small Scale Livestock practices only? If answer is NO, uncheck Specialty Agriculture and Small Scall Livestock from category selection.	YES	--
	NO	--

Section: WLFW Monarch Butterfly Program Questions*

Question	Answer Choices	Points
Is any of the offered land within the Working Lands for Wildlife Monarch Butterfly project area? Geospatial	Yes	5
	No	0
Does the practices benefit the WLFW Monarch Butterfly project? If answer is NO, uncheck WLFW Monarch Butterfly from Category selection.*	YES	--
	NO	--

Section: WLFW Northern Bobwhite Initiative Program Questions*

Question	Answer Choices	Points
Does the planning land unit (PLU) intersect the national geospatial layer 'WLFW NOBO Grasslands and Savannas Boundary'?	Yes	5
	No	0
Does the application benefit the WLFW NOBO/NBI Project? If answer is NO, uncheck WLFW NOBO/NBI from Category selection.*	YES	--
	NO	--

Survey: Resource Questions

Section: Animal Feeding Operations Resource Questions*		
Question	Answer Choices	Points
Land is within HUC12 Watershed of a designated impaired water body TMDL, 303d listed waterbody, or other State designation (Geospatial answered).	Yes	2
	No	0
Has the applicant received financial assistance to address waste management resource concern within the last 2 years (10/01/2023 to 9/30/2025) previous to the start of the current fiscal year.	YES	0
	NO	3
Will the application include any expansion of the set maximum allowable square footage per livestock type (i.e., Beef Finisher, Cow/Calf etc.) or existing animal units according to the accepted design, CNMP and producer's intentions?	Yes, expanding greater than 25%	-50
	Yes, expanding but not more than 25%	2
	No expansion	4
Nutrient Management (590) will be included in the contract for all cropland acres included in the CNMP.	YES	4
	NO	0
The application includes:	Treatment of all manure created by the livestock in an AFO located within 1000 feet of a stream	4
	Relocation of an AFO(s) located within the 100-year floodplain to a location outside of the floodplain	4
	Other	0
Does the site have open lots currently used by livestock and all lots will be eliminated with the EQIP application?	YES	3
	NO	0

Section: CPA DIA CEMA Resource Questions*		
Question	Answer Choices	Points
Is this application for a revision of an existing CPA/CAP plan?	YES	0
	NO	10
The application includes a Design and Implementation activity (DIA)?	YES	--
	NO	--

Section: High Tunnel, Specialty Agriculture, Small Scale Livestock Resource Questions*		
Question	Answer Choices	Points
Will products be directly improving access to fresh food: Sold or donated directly to the consumer(e.g., farmer's markets, Community-Supported Agriculture(CSA), local schools, roadside stands, etc.)?*	YES	2
	NO	0

Section: High Tunnel, Specialty Agriculture, Small Scale Livestock Resource Questions*

Question	Answer Choices	Points
Which choice is most applicable to the application?*	High Tunnel Initiative (i.e., High tunnels ad directly supporting practices only)	--
	Specialty Production - Specialty Ag: may includetree fruit/nuts; vegetables; herbs; horticulture and nursery crops, including cut flowers (i.e. crops other than grain corn, soybeans, hay/alfalfa, oilseeds, cereal/small grains, dry beans, sugar beets)	--
	Small Scale Livestock (practice schedule directly supports livestock operation) - Includes micro and backyard livestock operations; generally no more than 5 animal units per hooved species and/or poultry flocks fewer than 250 birds. For larger operations, use the Non-AFO/Pasture ranking category.	--
HIGH TUNNEL: Does the EQIP schedule of operations include practices related to the management of soil fertility, plant nutrients, or soil amendments within the high tunnel for the purpose of improving water quality?*	YES	1
	NO	0
HIGH TUNNEL: Does the EQIP schedule of operations include practices that will reduce erosion and improve soil health in and/or around the high tunnel?*	Supporting practices are planned within AND around the high tunnel	2
	Supporting practices are planned within OR around the high tunnel	1
	There are no supporting practices planned to address erosion	0
HIGH TUNNEL: Does the EQIP schedule of operations include practices that establish native perennial plant species that support the high tunnel but also benefit wildlife, pollinators, or beneficial insects?*	YES	1
	NO	0
SPECIALTY PRODUCTION: Does the EQIP schedule of operations include practices that address ground or surface water impairment related to excessive nutrients, pesticides, or other pollutants?*	3+ Practices	2
	1- 2 Practices	1
	0 Practices	0
SPECIALTY PRODUCTION: Does the EQIP schedule of operations include practices that will reduce erosion?*	3+ practices	2
	1-2 practices	1
	0 practices	0
SPECIALTY PRODUCTION: Does the EQIP schedule of operations include practices that establish native perennial plant species that benefit wildlife, pollinators, or beneficial insects?*	YES	2
	NO	0
SPECIALTY PRODUCTION: Does the application include a system of conservation practices implemented on at least one field to build soil health or increase crop diversity?*	Yes, both soil health and crop diversity	2
	Yes, but only soil health	1
	No	0
SMALL SCALE LIVESTOCK: Does the EQIP schedule of operations include 528-Grazing Management on all contracted PLUs?*	YES	3
	NO	0
SMALL SCALE LIVESTOCK: Does the EQIP schedule of operations include practices that establish or manage native perennial plant species that benefit wildlife, pollinators, or beneficial insects?*	Planned practices establish AND include a separate planned management activity	3
	Planned practices establish OR include a planned management activity	2
	No	0

Section: MRBI Resource Questions*

Question	Answer Choices	Points
How many of the identified goals will be addressed for the MRBI project?	All of the identified goals will be addressed.	5
	One or more of the identified goals will be addressed.	3
Does the PLU (Planned Land Unit) intersect critical source areas (the priority area) identified in the watershed assessment plan for this MRBI project.	YES	--
	NO	--
The application is addressing primary water quality concerns by supporting the Iowa Nutrient Reduction Strategy through application of one or more of the following practices: 590 Nutrient Management, 340 Cover Crop, 329 Residue and Tillage Mgmt No-Till (3 continuous years required), 393 Filter Strip, 605 Denitrifying Bioreactor, 604 Saturated Buffer, 554 Drainage Water Mgmt, 656 Constructed Wetland, 658 Wetland Creation, 659 Wetland Enhancement, 657 Wetland Restoration, 327 Conservation Cover, 600 Terrace, 638 Water and Sediment Control Basin, 332 Contour Buffer Strips.	YES	3
	NO	0
Is this predominantly a Cropland Soil Health or a Pasture PCS application?	Crop	--
	Pasture	--
CROP: The intended treatment in this application supports the National Soil Health Initiative. How many of the following soil health practices, are scheduled as new activities : 1) 340-Cover Crop, 2) 329-Residue and Tillage Management, No Till, 3) 328-Conservation Crop Rotation, 4) 590-Nutrient Management, 5) 595-Pest Management Conservation System?*	5	5
	4	4
	3	3
	2	2
	1	1
	None	0
PASTURE: The intended treatment in this application will address improvements in the Pasture Condition Score sheet. How many of the following practices are scheduled as new activities: 1) 314 Brush Management or 315-Herbaceous Weed Control, 2) 472- Access Control, 3) 512-Pasture and Hay Planting, 4) 516-Livestock Pipeline, 5) 528-Grazing Management?*	5	5
	4	4
	3	3
	2	2
	1	1
	None	0

Section: NWQI Resource Questions*

Question	Answer Choices	Points
How many of the goals are identified in the watershed assessment plan for this NWQI project?	All of the identified goals will be addressed.	5
	One or more of the identified goals will be addressed.	3
Land is within HUC12 Watershed of a designated impaired water body, TMDL, 303d listed waterbody, or other State designation.	Yes	3
	No	0
Does the PLU (Planned Land Unit) intersect (touch or contain) critical source areas (the priority areas) identified in the watershed assessment plan for this NWQI project.	YES	4
	NO	0

Section: NWQI Resource Questions*

Question	Answer Choices	Points
The application is addressing primary water quality concerns by supporting the Iowa Nutrient Reduction Strategy through application of one or more of the following practices: 590 Nutrient Management, 340 Cover Crop, 329 Residue and Tillage Mgmt No-Till (3 continuous years required), 393 Filter Strip, 605 Denitrifying Bioreactor, 604 Saturated Buffer, 554 Drainage Water Mgmt, 656 Constructed Wetland, 658 Wetland Creation, 659 Wetland Enhancement, 657 Wetland Restoration, 327 Conservation Cover, 600 Terrace, 638 Water and Sediment Control Basin, 332 Contour Buffer Strips.	YES	3
	NO	0
Is this predominantly a Cropland Soil Health or a Pasture PCS application?	Crop	--
	Pasture	--
CROP: The intended treatment in this application supports the National Soil Health Initiative. How many of the following soil health practices, are scheduled as new activities : 1) 340-Cover Crop, 2) 329-Residue and Tillage Management, No Till, 3) 328-Conservation Crop Rotation, 4) 590-Nutrient Management, 5) 595-Pest Management Conservation System?*	5	5

	None	0

Section: Regenerative Pilot Program Resource Questions*

Question	Answer Choices	Points
How many of the primary regenerative management practices (RPP) will be implemented by the end of the contract? 328-Conservation Crop Rotation, 330-Contour Farming, 331-Contour Orchard and Other Perennial Crop, 340-Cover Crops, 554-Drainage Water Management, 511-Forage Harvest Management, 666-Forest Stand Improvement, 449- Irrigation Water Management, 484-Mulching, 590-Nutrient Management, 595-Pest Management Conservation System, 528-Grazing Management, 329-Residue and Tillage Management, No Till, 345-Residue and Tillage Management, Reduced, 585-Stripcropping*	3 or more practices	23
	2 practices	10
	1 practice	5
How many land uses are RPP Primary Practices planned on in the application?	3 land uses (ALL Cropland, Pasture and Forest)	12
	2 land uses (Cropland, Pasture AND/OR Forest)	7
	1 land use (Cropland, Pasture OR Forest)	2
	None of the Above	0
Will the planned practices result in an increased level of management for an observed or historical RPP core conservation practice?	YES	5
	NO	0

Section: Source Water Protection Resource Questions*

Question	Answer Choices	Points
Does the EQIP schedule of operations include practices that will result in creation of buffer zones that will mitigate offsite contaminants from entering the water bodies? Practices include 390, 391, 393, 604, 605, 657, 658 and/or 659; or is there an existing buffer, with a minimum width as required by practices 390 or 391, which will be maintained and that will mitigate offsite contaminants from entering water bodies.	YES	7
	NO	0
Within the SWP watersheds, how many of the approved priority source water protection activities (i.e., Wp codes in EQIP cost list) for EQIP are scheduled as new activities in the application?	Within the SWP watersheds, the application includes 5 or more of the approved priority source water protection activities.	7
	Within the SWP watersheds, the application includes 3-4 of the approved priority source water protection activities.	4
	Within the SWP watersheds, the application includes 1-2 of the approved priority source water protection activities.	2
What percentage of the acres in the eligible PLUs have practices scheduled from the list of the priority SWP activities?	More than 75%	6
	50% to 75%	4
	Less than 50%	2

Section: WFLW Monarch Butterfly Resource Questions*

Question	Answer Choices	Points
Does the application include practices to establish or improve habitat for Monarch Butterflies according to the Best Management Practices (BMPs)?	YES	2
	NO	0
Does the application include at least 2 acres being contracted that meets or exceeds the seeding requirements for the Monarch Habitat Mix in the Native Seeding Calculator?	YES	3
	NO	0
Does the PLU occur within the WFLW MOBU priority area for conservation WFLW_Monarch_Butterfly_Boundary layer in the CART geoportal? Geospatially Answered.	Yes	3
	No	0
What mix of species or management best describes the Direct Target Species Benefit?	Planting mix includes two or more species of milkweed (Asclepias spp.)	5
	Planting mix includes one species of milkweed (Asclepias spp.)	3
	Management of existing habitat will increase existing milkweed and floral resources	1
	Mix or management type not listed	0
Regarding landscape position, is the PLU located adjacent to ag lands treated with insecticides (excluding treated seeds)?	YES	0
	NO	2
Regarding landscape position, is the center point of the PLU < 125 feet from ag lands treated with insecticides?	YES	0
	NO	2
Regarding landscape position, the proximity to existing MOBU habitat is < 0.2 miles (i.e., natural areas, CRP, prairies, etc. with abundant milkweed or other beneficial plants)?	YES	1
	NO	0
Regarding landscape position, is the proximity to existing MOBU habitat <0.5 miles away, protected for conservation purposes by fee-title, easement, or long-term lease (>5 years)?	YES	2
	NO	0

Section: WLFW Northern Bobwhite Initiative Resource Questions*

Question	Answer Choices	Points
Is the primary purpose of this application to install conservation practices to benefit NOBO quail?	YES	1
	NO	0
Does the applicant have a Wildlife Management Plan that identifies the Bobwhite Quail as a targeted species?	YES	1
	NO	0
How many habitat components exist in the project area?	3 habitat components	3
	2 habitat components	2
	1 habitat component	1
	None	0
What percentage of the project area is planned to nesting cover?	Greater than 30% = HIGH	3
	10% to 30% = MEDIUM	2
	Less than 10% = LOW	1
What percentage of the project area is planned to brood rearing cover?	Greater than 40% = HIGH	3
	10% to 40% = MEDIUM	1
	Less than 10% = LOW	0
What percentage of the project area is planned to escape/overwintering cover?	Greater than 25%	3
	10% to 25%	2
	5% to 10%	1
	Less than 5%	0
How many habitat components are planned to occur within 150' of each other?	3 habitat components	3
	2 habitat components	1
	1 habitat component	0
How many habitat components occur within 660' of the project area?	3 habitat components	3
	2 habitat components	1
	1 habitat component	0
