Resource Concern Categories

Categories			
Category	Min %	Default %	Max %
Animals (Aquatic habitat)	0	5	100
Animals (Livestock production limitation)	0	10	100
Animals (Terrestrial habitat)	0	5	100
Plants (Degraded plant condition)	0	10	100
Plants (Fire management)	0	5	100
Plants (Pest pressure)	0	10	100
Soil (Concentrated erosion)	0	10	100
Soil (Soil quality limitations)	0	5	100
Soil (Wind and water erosion)	0	5	100
Water (Field pesticide loss)	0	10	100
Water (Field sediment, nutrient and pathogen loss)	0	10	100
Water (Source water depletion)	0	5	100
Water (Storage and handling of pollutants)	0	10	100

Animals (Aquatic habitat)

Resource Concern	Min %	Default %	Max %
Aquatic Habitat (Aquatic habitat for fish and other organisms)	0	50	100
Aquatic Habitat (Elevated water temperature)	0	50	100

Animals (Livestock production limitation)

Resource Concern	Min %	Default %	Max %
Livestock Health (Feed and forage balance)	0	40	100
Livestock Health (Inadequate livestock shelter)	0	20	100
Livestock Health (Inadequate livestock water quantity, quality and distribution)	0	40	100

Animals (Terrestrial habitat)

Resource Concern	Min %	Default %	Max %
Terrestrial Habitat (Terrestrial habitat for wildlife and invertebrates)	0	100	100

Plants (Degraded plant condition)

Resource Concern	Min %	Default %	Max %
Plant Health (Plant productivity and health)	0	50	100
Plant Health (Plant structure and composition)	0	50	100

Plants (Fire management)

Resource Concern	Min %	Default %	Max %
Wildfire Hazard (Wildfire hazard from biomass accumulation)	0	100	100

Plants (Pest pressure)

Resource Concern	Min %	Default %	Max %
Plant Health (Plant pest pressure)	0	100	100

Soil (Concentrated erosion)

Resource Concern	Min %	Default %	Max %
Soil Erosion (Bank erosion from streams, shorelines or water conveyance channels)	0	30	100
Soil Erosion (Classic gully erosion)	0	35	100
Soil Erosion (Ephemeral gully erosion)	0	35	100

Soil (Soil quality limitations)

Resource Concern	Min %	Default %	Max %
Soil Health (Aggregate instability)	0	15	100

Soil (Soil quality limitations)

Resource Concern	Min %	Default %	Max %
Soil Health (Compaction)	0	25	100
Soil Health (Concentration of salts or other chemicals)	0	10	100
Soil Health (Organic matter depletion)	0	25	100
Soil Health (Soil organism habitat loss or degradation)	0	20	100
Soil Health (Subsidence)	0	5	100

Soil (Wind and water erosion)

Resource Concern	Min %	Default %	Max %
Soil Erosion (Sheet and rill erosion)	0	100	100
Soil Erosion (Wind erosion)	0	--	100

Water (Field pesticide loss)

Resource Concern	Min %	Default %	Max %
Water Quality (Pesticides transported to groundwater)	0	50	100
Water Quality (Pesticides transported to surface water)	0	50	100

Water (Field sediment, nutrient and pathogen loss)

Resource Concern	Min %	Default %	Max %
Water Quality (Nutrients transported to groundwater)	0	20	100
Water Quality (Nutrients transported to surface water)	0	20	100
Water Quality (Pathogens and chemicals from manure, biosolids or compost applications transported to groundwater)	0	20	100
Water Quality (Pathogens and chemicals from manure, biosolids or compost applications transported to surface water)	0	20	100
Water Quality (Sediment transported to surface water)	0	20	100

Water (Source water depletion)

Resource Concern	Min %	Default %	Max %
Water Quantity (Groundwater depletion)	0	35	100
Water Quantity (Inefficient irrigation water use)	0	35	100
Water Quantity (Surface water depletion)	0	30	100

Water (Storage and handling of pollutants)

Resource Concern	Min %	Default %	Max %
Water Quality (Nutrients transported to groundwater)	0	25	100
Water Quality (Nutrients transported to surface water)	0	25	100
Water Quality (Petroleum, heavy metals and other pollutants transported to groundwater)	0	25	100

Water (Storage and handling of pollutants)

Resource Concern	Min %	Default %	Max %
Water Quality (Petroleum, heavy metals and other pollutants transported to surface water)	0	25	100

Survey: Program Questions

Section: General: Program Questions

Question	Answer Choices	Points
Does the land in the application fall within the watershed boundary of an NCDA and CS Division of Soil and Water Targeted Watershed OR if forestry, falls within a designated priority area for conserving working forest lands as designated by the NC DFR? (Geospatial answer).	Yes, the land in the application does fall within the watershed boundary of NC Working Forestry Priority Areas.	2
	Yes, the land in the application does fall within the watershed boundary of NCDA and CS Division of Soil and Water Targeted Watershed.	2
	No, the land in the application does not fall within the watershed boundary of an NCDA and CS Division of Soil and Water Targeted Watershed or PLUs do not intersect the NC Working Forestry Priority Areas.	0
Does the applicant meet the NRCS definition of a veteran farmer?	YES	15
	NO	0
Did the applicant participate in the CRP Transition Incentives Program (TIP), and has the land in the EQIP application come out of CRP within the last 2 years?	YES	5
	NO	0
Does the PLU intersect the High Priority Source Water Protection Areas FY23 layer?	Yes, the PLU intersects the SWPA.	--
	No, the PLU does not intersect the SWPA.	--
Will this application address field pesticide loss, field sediment/nutrient/ pathogen loss, salt losses to water, source water depletion, storage and handling of nutrients?*	YES	--
	NO	--
Does the application include: 313 - Waste Storage Facility; 327 - Conservation Cover; 342 - Critical Area Planting; 351 - Well Decommissioning; 386 - Field Border; 391 - Riparian Forest Buffer; 412 - Grassed Waterway; 449 - Irrigation Water Management; 472 - Access Control; 533 - Pumping Plant; 561 - Heavy Use Area Protection; 595 - Pest Management Conservation System; 642 - Water Well; and/or 614 - Watering Facility.*	YES	5
	NO	0
CROPLAND: Does the application include Management Practices or Structural Practices on Cropland?*	YES	--
	NO	--

Section: General: Program Questions

Question	Answer Choices	Points
CROPLAND: The intended treatment in this application supports soil health. How many of the following soil health practices, are scheduled as new activities: (327) Conservation Cover, (328) Conservation Crop Rotation, (329) Residue & Tillage Management, No Till, (340) Cover Crop, (484) Mulching, (590) Nutrient Management and/or (595) Pest Management Conservation System?*	5 or more practices	15
	4 practices	12
	3 practices	9
	2 practices	6
	1 practice	3
	None of the practices listed.	0
Does the application include one or more of the following practice(s): (386) Field Border, (391) Riparian Forest Buffer, (393) Filter Strip in addition to other conservation practices that address a water quality resource concern?*	YES	10
	NO	0
CROPLAND: Does the application include practices that result in a reduction of sheet and rill erosion or improve soil quality on cropland?*	On the entire tract	15
	On the application area	10
	None of the options apply	0
FORESTLAND: Does the application include conservation practices on Forestland?	YES	--
	NO	--
FORESTLAND: Does the application address invasive species in the Forest Management Plan?*	YES	20
	NO	0
FORESTLAND: Will treatment requested by this application achieve a Wildlife Habitat Evaluation Procedure (WHEP) of 0.5 or greater OR improve the benchmark condition by 0.25 for the forestland application acres?*	YES	10
	NO	0
FORESTLAND: Will the treatment requested by this application reduce the dominant stand's stocking rate, basal area, or trees per acre by implementing practice 666 Forest Stand Improvement?*	YES	10
	NO	0
PASTURE: Does the application include conservation practices on Pastureland with livestock on site?	YES	--
	NO	--
PASTURE: Does the EQIP application include implementation of (528) Grazing Management on all grazed lands included in the application?*	YES	10
	NO	0
PASTURE: Will implementation of this application result in water quality improvement by excluding livestock from water bodies?*	YES	10
	NO	0
PASTURE: The intended treatment in this application will address deficiencies described in the Pasture Condition Score sheet. How many of the following practices, are scheduled as new activities on the pasture acres: 1) 314 Brush Management or 315-Herbaceous Weed Control, 2) 512-Pasture and Hay Planting, 3) 516-Livestock Pipeline, 4) 528- Grazing Management, 5) 382-Fence?*	5 practices	12
	4 practices	10
	3 practices	8
	2 practices	6
	1 practice	4
	None of the practices listed	--
WILDLIFE: Does the application include practices to improve wildlife habitat?	YES	--
	NO	--
WILDLIFE: Does this application include the establishment of Early Successional and/or Pollinator Habitat?*	YES	10
	NO	0

Section: General: Program Questions

Question	Answer Choices	Points
WILDLIFE: Will the planned practices directly address improvement of aquatic habitat?*	YES	8
	NO	0
WILDLIFE: The application includes practices that retain or improve wildlife habitat on land touching Conservation Reserve Program (existing or recently accepted for enrollment in CRP), or on protected land (Easements, NC DNCR, USFWS, TNC, etc.) that has wildlife habitat, or on land exiting CRP.*	YES	6
	NO	0
WILDLIFE: Does the EQIP application include practices with the intent of increasing habitat for pollinators, beneficial insects, or both.*	YES	6
	NO	0
WILDLIFE: Does the EQIP application include implementation of one of the following as a primary practice: filter strips, riparian forest buffers and/or riparian herbaceous cover.*	YES	6
	NO	0
WILDLIFE: Does the PLU intersect a national WLFW priority layer? (Geospatial answer).*	Yes, the PLU(s) intersect a national priority layer.	6
	No, the PLU(s) does not intersect a national WLFW priority layer.	0

Section: ACT NOW Long Leaf Pine Establishment*

Question	Answer Choices	Points
Is at least 50% of the planned land units (PLUs) included in the application intersect the LLPI geodata boundary layer? (geospatially answered)*	Yes, High Priority LLP Area	--
	Yes, Medium Priority LLP Area	--
	No	--
The application includes at least one of the applicable core practices or completes a conservation system that supports core practices that are documented as already applied on the land under contract, and practices in the application are predominantly practices which contribute to the establishment, improvement, or maintenance of longleaf pine ecosystems on the planned land units.*	YES	--
	NO	--

Section: ACT NOW Long Leaf Pine Management*

Question	Answer Choices	Points
Is at least 50% of the planned land units (PLUs) included in the application intersect the LLPI geodata boundary layer? (geospatially answered)	Yes, High Priority LLP Area	--
	Yes, Medium Priority LLP Area	--
	No	--
The application includes at least one of the applicable core practices or completes a conservation system that supports core practices that are documented as already applied on the land under contract, and practices in the application are predominantly practices which contribute to the establishment, improvement, or maintenance of longleaf pine ecosystems on the planned land units.*	YES	--
	NO	--

Section: AgChem Mix Program Questions*

Question	Answer Choices	Points
Are all cropland fields receiving pesticide applications treated so that there is no visible classic or ephemeral gully erosion evident?	YES	--
	NO	--

Section: CAFO Program Questions*

Question	Answer Choices	Points
Is the land being offered for enrollment used for livestock production, where funds are predominantly used to implement CAFO livestock practices?	YES	--
	NO	--

Section: Closure of Waste Impoundments Program Questions*

Question	Answer Choices	Points
Will this application result in the closure of a waste impoundment?	YES	--
	NO	--

Section: CPA DIA CEMA Program Questions*

Question	Answer Choices	Points
The application includes a Conservation Planning Activity (CPA), Design and Implementation Activity (DIA) and/or Conservation Evaluation and Monitoring Activity (CEMA)?	YES	--
	NO	--

Section: Crop Program Questions*

Question	Answer Choices	Points
Is the land being offered for enrollment used for cropland, where funds are predominantly used to implement cropland practices?	YES	--
	NO	--

Section: Forestry Questions*

Question	Answer Choices	Points
Is the land being offered for enrollment used for NIPF, where funds are predominantly used to implement forestry practices?	YES	--
	NO	--

Section: High Tunnel Systems Questions*

Question	Answer Choices	Points
Is the application for a High Tunnel Systems?	YES	--
	NO	--

Section: Irrigation Efficiency Center Pivot Questions*

Question	Answer Choices	Points
Is the main objective of this contract to address irrigation efficiency using a center pivot?	YES	--
	NO	--

Section: Irrigation Efficiency Microirrigation Questions*

Question	Answer Choices	Points
----------	----------------	--------

Section: Irrigation Efficiency Microirrigation Questions*

Question	Answer Choices	Points
Is the main objective of this contract to address irrigation efficiency using microirrigation?	YES	--
	NO	--

Section: Joint Chief Initiative_Uwharrie Questions*

Question	Answer Choices	Points
The planned land units (PLU) included in the application intersects the boundary of a selected and active JCLRP project. (Geospatial answer).	Yes, PLU intersects the JCLRP boundary.	--
	No, PLU does not intersect the JCLRP boundary.	--

Section: On-Farm Energy Questions*

Question	Answer Choices	Points
Is the main objective of this plan to contract energy efficiency practices?	YES	--
	NO	--

Section: OTI Questions*

Question	Answer Choices	Points
Do the practices in the plan support transition to an organic farming operation?	YES	--
	NO	--

Section: Pasture Questions*

Question	Answer Choices	Points
Is the land being offered for enrollment used for pasture, where funds are predominantly used to implement livestock related practices?	YES	--
	NO	--

Section: Reapplication of Failed Practices Questions*

Question	Answer Choices	Points
Is the main objective of the application to address the reapplication of failed conservation practice(s) due to a storm event?	YES	--
	NO	--

Section: Regenerative Pilot Program Questions*

Question	Answer Choices	Points
The applicant will develop a whole farm plan and include soil testing by planning CEMA 216 in the first and last year of the contract.*	YES	8
	NO	0

Section: Sustainable Forestry Initiative Program Questions*

Question	Answer Choices	Points
----------	----------------	--------

Section: Sustainable Forestry Initiative Program Questions*

Question	Answer Choices	Points
Is the PLU located with the Sustainable Forestry Area and the conservation plan meets the objectives of the Sustainable Forestry Initiative?	Yes, the PLU is located within the Sustainable Forestry Initiative Area	--
	No, the PLU is not located within the Sustainable Forestry Initiative Area	--
Is the treatment requested by this application part of a conservation plan that when implemented will restore and/or manage a restored declining forest habitat?*	YES	1
	NO	0
Will the treatment requested by this application result in conversion of open land that is Land Capability Class (LCC) IV or greater to the forest land?*	YES	1
	NO	0
Does the applicant meet the Socially Disadvantaged (SDA) producer definition?*	YES	2
	NO	0

Section: Urban Questions*

Question	Answer Choices	Points
Will the majority of the PLU(s) be located within the High or Medium Priority Area?	> 50% of the PLU(s) is within the NC Urban High Priority Area.	5
	> 50% of the PLU(s) is within the NC Urban Medium Priority Area.	2
	Otherwise	0

Section: Wildlife-Aquatic Questions*

Question	Answer Choices	Points
Does this application include the establishment of aquatic wildlife habitat?	YES	--
	NO	--

Section: Wildlife-Early Successional & Pollinator Habitat Questions*

Question	Answer Choices	Points
Does this application include the establishment of Early Successional and/or Pollinator Habitat?	YES	--
	NO	--

Section: Wildlife-Forest Questions*

Question	Answer Choices	Points
Is the land being offered for enrollment used for NIPF, where funds are predominantly used to implement Wildlife forest related practices?	YES	--
	NO	--

Survey: Resource Questions

Section: ACT NOW Long Leaf Pine Establishment Resource Questions*

Question	Answer Choices	Points
----------	----------------	--------

Section: ACT NOW Long Leaf Pine Establishment Resource Questions*

Question	Answer Choices	Points
Does this application pertain to land that is contiguous to a protected area such as a national forest, military installation, national wildlife refuge, state forest, heritage reserve, or land protected by a perpetual conservation easement (e.g., WRP, FRPP, GRP, and TNC)?*	YES	15
	NO	0
Is the field (acreage) where practice installation will take place located within a state-designated priority county (or counties)? *	Yes	10
	No	0
Will the offered area connect two or more blocks of longleaf pine?	Yes	10
	No	0
Does this application pertain to land with a forest management plan that includes prescribed burning in an established longleaf pine stand (not for site prep burning)?	YES	15
	NO	0

Section: ACT NOW Long Leaf Pine Management Resource Questions*

Question	Answer Choices	Points
Does this application pertain to land that is contiguous to a protected area such as a national forest, military installation, national wildlife refuge, state forest, heritage reserve, or land protected by a perpetual conservation easement (e.g., WRP, FRPP, GRP, and TNC)?	YES	15
	NO	0
Is the field (acreage) where practice installation will take place located within a state-designated priority county (or counties)?	Yes	10
	No	0
Will the offered area connect two or more blocks of longleaf pine?	Yes	10
	No	0
Does this application pertain to land with a forest management plan that includes prescribed burning in an established longleaf pine stand (not for site prep burning)?	YES	15
	NO	0

Section: AgChem Mix Resource Questions*

Question	Answer Choices	Points
Is the current chemical mixing/loading site within 250 feet of a stream or water course?*	YES	1
	NO	0
The applicant has agreed to mix/load all pesticides in the Ag Chemical Handling Facility and not use any outdoor mixing/loading sites?*	YES	1
	NO	0

Section: CAFO Resource Questions*

Question	Answer Choices	Points
Will implementation of this application result in an improvement of an animal mortality system from a disposal pit/burial to incinerator/composter on the operation? (Not to include catastrophic mortality) (316 must be contracted)*	YES	2
	NO	0
Will the implementation of this application result in contracting practices that move concentrated feeding areas away from streams/water courses on or directly adjacent to the farm?*	YES	2
	NO	0

Section: CAFO Resource Questions*

Question	Answer Choices	Points
Will the implementation of this application result in contracting practices that address water quality due to sediment or nutrient runoff as a result of the current CAFO operation?*	YES	2
	NO	0

Section: Closure of Waste Impoundments Resource Questions*

Question	Answer Choices	Points
Will a waste impoundment closure be located within 500 feet of surface waters?*	YES	1
	NO	0
Is the waste impoundment closure located within 1000 feet of a residential drinking water well?*	YES	1
	NO	0
Have calculations of the waste volume of the proposed waste impoundment closure been completed and is there sufficient land to apply the waste to?*	YES	2
	NO	0

Section: CPA DIA CEMA Resource Questions*

Question	Answer Choices	Points
The application includes a DIA and/or CEMA?*	YES	2
	NO	0

Section: Crop Resource Questions*

Question	Answer Choices	Points
Will application result in implementation of Cover Crop that has a "very good" soil builder rating AND/OR planting a multi species cover crop?*	YES	2
	NO	0
Does the EQIP schedule of operations include practices that address ground or surface water impairment related to excessive nutrients, pesticides, or other pollutants?*	2+ Practices	2
	1 Practice	1
	0 Practices	0

Section: Forestry Resource Questions*

Question	Answer Choices	Points
Does the application include plans to plant trees on steep mountain slopes greater than 15% slopes (D, E, or F soil(s)) or greater on the USDA soils map?*	YES	2
	NO	0
Does this application include the conversion of cropland or pastureland to forestland?*	YES	2
	NO	0
Does this application include planned 666 forest stand improvements to improve forest health, species diversity and/or planned treatment of eroding areas on forest land?*	YES	2
	NO	0

Section: High Tunnel Systems Resource Questions*

Question	Answer Choices	Points
----------	----------------	--------

Section: High Tunnel Systems Resource Questions*

Question	Answer Choices	Points
Will products be directly improving access to fresh food: Sold or donated directly to the consumer(e.g., farmer's markets, Community-Supported Agriculture (CSA), local schools, roadside stands, etc.)*	YES	2
	NO	0
Does the EQIP schedule of operations include practices related to the management of soil fertility, plant nutrients, or soil amendments within the high tunnel for the purpose of improving water quality and/or soil health?*	YES	1
	NO	0

Section: Irrigation Efficiency Center Pivot Resource Questions*

Question	Answer Choices	Points
Do fields in this application meet soil loss tolerance levels with the current cropping system?*	YES	1
	NO	0
Will implementation of this application result in elimination of an overhead sprinkler irrigation system?*	YES	1
	NO	0

Section: Irrigation Efficiency Microirrigation Resource Questions*

Question	Answer Choices	Points
Do fields in this application meet soil loss tolerance levels with the current cropping system?*	YES	1
	NO	0
Will implementation of this application result in elimination of an overhead sprinkler irrigation system?*	YES	1
	NO	0

Section: Joint Chief Initiative_Uwharrie Resource Questions*

Question	Answer Choices	Points
Does the EQIP contract leverage the management of natural resources across land ownership (public-private) boundaries? Only choose one answer.	The PLU is located in an area that is bordering land management treatments on public land as identified in the selected JCLRP project proposal.	50
	The PLU is located in an area near, but not bordering, land management treatments on public land as identified in the selected JCLRP project proposal.	40
	The PLU is located in an area bordering public land that is identified in the selected JCLRP project proposal, even though the public land is not under active land management treatments.	20
	The PLU is located in an area near, but not bordering, public land that is identified in the selected JCLRP project proposal, even though the public land is not under active land management treatments.	10

Section: On-Farm Energy Resource Questions*

Question	Answer Choices	Points
Use the "Energy Cost Efficiency Worksheet" to calculate the estimated energy cost efficiency value for the conservation practices in the EQIP Plan/Schedule of Operations.*	Is the estimated energy cost efficiency 50 percent or more?	2
	Is the estimated energy cost efficiency between 30 and 50 percent?	1
	Is the estimated energy cost efficiency less than 30 percent?	0

Section: OTI Resource Questions*

Question	Answer Choices	Points
Will you be planning 823 Organic Management?*	YES	1
	NO	0

Section: Pasture Resource Questions*

Question	Answer Choices	Points
Will this application result in livestock exclusion from all surface waters and wetlands that animals have access to? 382 must be contracted.*	YES	3
	NO	0
Does this application include 528 Grazing Management?*	YES	3
	NO	0

Section: Reapplication of Failed Practices Resource Questions*

Question	Answer Choices	Points
Is the main objective of the application to address the reapplication of failed conservation practice(s) due to a storm event?*	Hurricane Helene	1
	Other Storm Event	1

Section: Regenerative Pilot Program Resource Questions*

Question	Answer Choices	Points
The applicant will develop a whole farm plan and include soil testing by planning CEMA 216 in the first and last year of the contract.	YES	2
	NO	0

Section: Sustainable Forestry Initiative Resource Questions*

Question	Answer Choices	Points
Will this application result in establishment or management of loblolly pine, shortleaf pine, wetland conifer or wetland hardwood trees?	YES	1
	NO	0

Section: Urban Resource Questions*

Question	Answer Choices	Points
----------	----------------	--------

Section: Urban Resource Questions*

Question	Answer Choices	Points
Does the application include practices that address Pollinator/Beneficial Insect Habitat; stormwater runoff; soil health; existing erosion concern; Nutrient Management; and/or Pest Management?*	3 objectives	3
	2 objectives	2
	1 objectives	1
	None	0

Section: Wildlife-Aquatic Resource Questions*

Question	Answer Choices	Points
Will the proposed practices target the recovery of a specific federal or state endangered species, threatened species, or species of concern (i.e. does the project target specific habitat needs of these species)?*	YES	1
	NO	0

Section: Wildlife-Early Successional & Pollinator Habitat Resource Questions*

Question	Answer Choices	Points
Will this application/practices create or enhance appropriate vegetative structure to maintain or improve Early Successional or Pollinator Habitat conditions (this will be dependent on conditions and could include flash grazing, brush management, burning, herbaceous weed treatment, etc.)?*	YES	1
	NO	0

Section: Wildlife-Forest Resource Questions*

Question	Answer Choices	Points
Will this application include controlling or reducing a minimum of 90% of invasive or non-native plants found in the proposed project area over the contract's life, as determined by the NRCS biologist?*	YES	1
	NO	0
