Resource Concern Categories

Categories			
Category	Min %	Default %	Max %
Air (Air quality emissions)	0	5	100
Animals (Aquatic habitat)	0	5	100
Animals (Livestock production limitation)	0	6	100
Animals (Terrestrial habitat)	0	5	100
Energy (Inefficient energy use)	0	6	100
Plants (Degraded plant condition)	0	6	100
Plants (Fire management)	0	5	100
Plants (Pest pressure)	0	6	100
Soil (Concentrated erosion)	0	10	100
Soil (Soil quality limitations)	0	10	100
Soil (Wind and water erosion)	0	6	100
Water (Field pesticide loss)	0	5	100
Water (Field sediment, nutrient and pathogen loss)	0	5	100
Water (Source water depletion)	0	10	100
Water (Storage and handling of pollutants)	0	5	100
Water (Weather resilience)	0	5	100

Air (Air quality emissions)

Resource Concern	Min %	Default %	Max %
Air Quality (Emissions of airborne reactive nitrogen)	0	20	100
Air Quality (Emissions of greenhouse gases - GHGs)	0	20	100
Air Quality (Emissions of ozone precursors)	0	20	100
Air Quality (Emissions of particulate matter (PM) and PM precursors)	0	20	100
Air Quality (Objectionable odor)	0	20	100

Animals (Aquatic habitat)

Resource Concern	Min %	Default %	Max %
Aquatic Habitat (Aquatic habitat for fish and other organisms)	0	50	100
Aquatic Habitat (Elevated water temperature)	0	50	100

Animals (Livestock production limitation)

Resource Concern	Min %	Default %	Max %
Livestock Health (Feed and forage balance)	0	35	100
Livestock Health (Inadequate livestock shelter)	0	30	100
Livestock Health (Inadequate livestock water quantity, quality and distribution)	0	35	100

Animals (Terrestrial habitat)

Resource Concern	Min %	Default %	Max %
Terrestrial Habitat (Terrestrial habitat for wildlife and invertebrates)	0	100	100

Energy (Inefficient energy use)

Resource Concern	Min %	Default %	Max %
Energy Use (Energy efficiency of equipment and facilities)	0	50	100
Energy Use (Energy efficiency of farming/ranching practices and field operations)	0	50	100

Plants (Degraded plant condition)

Resource Concern	Min %	Default %	Max %
Plant Health (Plant productivity and health)	0	50	100
Plant Health (Plant structure and composition)	0	50	100

Plants (Fire management)

Resource Concern	Min %	Default %	Max %
Wildfire Hazard (Wildfire hazard from biomass accumulation)	0	100	100

Plants (Pest pressure)

Resource Concern	Min %	Default %	Max %
Plant Health (Plant pest pressure)	0	100	100

Soil (Concentrated erosion)

Resource Concern	Min %	Default %	Max %
Soil Erosion (Bank erosion from streams, shorelines or water conveyance channels)	0	30	100
Soil Erosion (Classic gully erosion)	0	35	100
Soil Erosion (Ephemeral gully erosion)	0	35	100

Soil (Soil quality limitations)

Resource Concern	Min %	Default %	Max %
Soil Health (Aggregate instability)	0	25	100
Soil Health (Compaction)	0	25	100
Soil Health (Organic matter depletion)	0	25	100
Soil Health (Soil organism habitat loss or degradation)	0	25	100

Soil (Wind and water erosion)

Resource Concern	Min %	Default %	Max %
Soil Erosion (Sheet and rill erosion)	0	100	100

Water (Field pesticide loss)

Resource Concern	Min %	Default %	Max %
Water Quality (Pesticides transported to surface water)	0	100	100

Water (Field sediment, nutrient and pathogen loss)

Resource Concern	Min %	Default %	Max %
Water Quality (Nutrients transported to surface water)	0	34	100
Water Quality (Pathogens and chemicals from manure, biosolids or compost applications transported to surface water)	0	34	100
Water Quality (Sediment transported to surface water)	0	32	100

Water (Source water depletion)

Resource Concern	Min %	Default %	Max %
Water Quantity (Groundwater depletion)	0	35	100
Water Quantity (Inefficient irrigation water use)	0	35	100
Water Quantity (Surface water depletion)	0	30	100

Water (Storage and handling of pollutants)

Resource Concern	Min %	Default %	Max %
Water Quality (Nutrients transported to surface water)	0	50	100
Water Quality (Petroleum, heavy metals and other pollutants transported to surface water)	0	50	100

Water (Weather resilience)

Resource Concern	Min %	Default %	Max %
Water Quantity (Naturally available moisture use)	0	34	100
Water Quantity (Ponding and flooding)	0	33	100
Water Quantity (Seasonal high water table)	0	33	100

Practices

Practice Name	Practice Code	Practice Narratives	Practice Type
CNMP Design and Implementation Activity	101	00N	Activities
Comprehensive Nutrient Management Plan	102	00N	Activities
Forest Management Plan	106	00N	Activities
Grazing Management Plan	110	00N	Activities

Feral Swine Damage Assessment	297	00N	Activities
Agrichemical Handling Facility	309	00N	Conservation Practices
Waste Storage Facility	313	00N, 01N	Conservation Practices
Brush Management	314	00N, 03N	Conservation Practices
Herbaceous Weed Treatment	315	00N, 01N	Conservation Practices
Animal Mortality Facility	316	00N, 01N, 02N, 03N	Conservation Practices
Composting Facility	317	00N, 01N, 03N	Conservation Practices
On-Farm Secondary Containment Facility	319	00N	Conservation Practices
High Tunnel System	325	00N	Conservation Practices
Clearing and Snagging	326	00N	Conservation Practices
Conservation Cover	327	00N, 01N	Conservation Practices
Conservation Crop Rotation	328	00N, 03N, 04N	Conservation Practices
Residue and Tillage Management, No Till	329	00N, 01N, 02N	Conservation Practices
Soil Carbon Amendment	336	00N, 01N, 02N	Conservation Practices
Prescribed Burning	338	00N, 01N	Conservation Practices
Cover Crop	340	00N, 01N	Conservation Practices

Practice Name	Practice Code	Practice Narratives	Practice Type
Critical Area Planting	342	00N	Conservation Practices
Residue and Tillage Management, Reduced Till	345	00N	Conservation Practices
Sediment Basin	350	00N	Conservation Practices
Dike and Levee	356	00N	Conservation Practices
Waste Treatment Lagoon	359	00N	Conservation Practices
Diversion	362	00N, 01N, 02N, 03N	Conservation Practices
Roofs and Covers	367	00N, 01N, 02N	Conservation Practices
Emergency Animal Mortality Management	368	00N, 01N, 02N, 03N	Conservation Practices
Combustion System Improvement	372	00N, 01N, 02N, 03N, 04N, 05N	Conservation Practices
Energy Efficient Agricultural Operation	374	00N, 01N, 02N, 03N, 04N, 05N, 06N	Conservation Practices
Pond	378	00N	Conservation Practices
Windbreak/Shelterbelt Establishment and Renovation	380	00N	Conservation Practices
Silvopasture	381	00N, 01N	Conservation Practices
Fence	382	00N, 03N, 04N	Conservation Practices
Woody Residue Treatment	384	00N, 01N, 02N	Conservation Practices
Field Border	386	00N	Conservation Practices
Riparian Herbaceous Cover	390	00N, 01N, 02N, 03N	Conservation Practices
Riparian Forest Buffer	391	00N, 03N	Conservation Practices
Filter Strip	393	00N, 01N	Conservation Practices
Firebreak	394	00N	Conservation Practices
Stream Habitat Improvement and Management	395	00N, 01N	Conservation Practices
Aquatic Organism Passage	396	00N	Conservation Practices
Aquaculture Pond	397	00N	Conservation Practices
Grade Stabilization Structure	410	00N	Conservation Practices
Grassed Waterway	412	00N	Conservation Practices
Wildlife Habitat Planting	420	00N, 01N	Conservation Practices

Practice Name	Practice Code	Practice Narratives	Practice Type
Hedgerow Planting	422	00N, 01N, 02N	Conservation Practices
Irrigation Pipeline	430	00N, 01N	Conservation Practices
Irrigation Reservoir	436	00N	Conservation Practices
Irrigation System, Microirrigation	441	00N, 02N	Conservation Practices
Sprinkler System	442	00N, 02N, 03N, 04N	Conservation Practices
Irrigation System, Surface and Subsurface	443	00N, 02N	Conservation Practices
Irrigation Water Management	449	00N, 03N	Conservation Practices
Land Clearing	460	00N	Conservation Practices
Precision Land Forming and Smoothing	462	00N	Conservation Practices
Irrigation Land Leveling	464	00N	Conservation Practices
Mulching	484	00N, 02N, 03N	Conservation Practices
Tree/Shrub Site Preparation	490	00N	Conservation Practices
Forage Harvest Management	511	00N, 02N	Conservation Practices
Pasture and Hay Planting	512	00N, 02N	Conservation Practices
Livestock Pipeline	516	00N	Conservation Practices
Grazing Management	528	00N, 02N, 03N, 04N	Conservation Practices
Pumping Plant	533	00N, 02N	Conservation Practices
Drainage Water Management	554	00N, 02N, 03N	Conservation Practices
Roof Runoff Structure	558	00N, 01N	Conservation Practices
Heavy Use Area Protection	561	00N	Conservation Practices
Stormwater Runoff Control	570	00N	Conservation Practices
Trails and Walkways	575	00N	Conservation Practices
Livestock Shelter Structure	576	00N, 01N	Conservation Practices
Stream Crossing	578	00N, 01N, 02N	Conservation Practices
Streambank and Shoreline Protection	580	00N, 02N	Conservation Practices
Structure for Water Control	587	00N	Conservation Practices
Nutrient Management	590	00N, 06N, 07N, 08N	Conservation Practices

Practice Name	Practice Code	Practice Narratives	Practice Type
Pest Management Conservation System	595	00N, 05N, 06N, 07N	Conservation Practices
Terrace	600	00N	Conservation Practices
Vegetative Barrier	601	00N	Conservation Practices
Subsurface Drain	606	00N	Conservation Practices
Tree/Shrub Establishment	612	00N, 01N	Conservation Practices
Watering Facility	614	00N	Conservation Practices
Underground Outlet	620	00N	Conservation Practices
Waste Treatment	629	00N	Conservation Practices
Waste Recycling	633	00N	Conservation Practices
Water Harvesting Catchment	636	00N	Conservation Practices
Water Well	642	00N	Conservation Practices
Restoration of Rare or Declining Natural Communities	643	00N, 01N, 02N	Conservation Practices
Wetland Wildlife Habitat Management	644	00N, 01N	Conservation Practices
Upland Wildlife Habitat Management	645	00N, 01N	Conservation Practices
Seasonal Water Management for Wildlife	646	00N	Conservation Practices
Early Successional Habitat Development-Mgt	647	00N	Conservation Practices
Structures for Wildlife	649	00N	Conservation Practices
Forest Trails and Landings	655	00N	Conservation Practices
Forest Stand Improvement	666	00N	Conservation Practices
Energy Efficient Lighting System	670	00N, 01N, 02N, 03N	Conservation Practices
Energy Efficient Building Envelope	672	00N, 01N, 02N, 03N, 04N	Conservation Practices
Amending Soil Properties with Lime	805	00N	Interim Conservation Practices
Annual Forages for Grazing Systems	810	00N	Interim Conservation Practices
Raised Beds	812	00N	Interim Conservation Practices
Low Tunnel Systems	821	00N	Interim Conservation Practices

Practice Name	Practice Code	Practice Narratives	Practice Type
Organic Management	823	00N	Interim Conservation Practices

Survey: Program Questions

Section: General Program Questions *

Question	Answer Choices	Points
Is this the first-time the applicant has applied for EQIP financial assistance?	YES	30
	NO	0
Are the land units in the application located in a Mississippi Source Water Protection Area?	SPWA >50%	10
	No	0
ANIMAL WASTE: Is the applicant a producer of confined poultry, dairy, swine or other livestock and required to comply with state laws concerning the management of animal waste?	YES	15
	NO	0
CROPLAND: Does the application include Management Practices or Structural Practices on Cropland?	YES	10
	NO	0
CROPLAND: Will cropland be converted to permanent cover?	YES	10
	NO	0
CROPLAND: Will applicant utilize surface water as the primary source of irrigation on the offered EQIP acres to alleviate some of the stress from the overuse of ground water wells?	YES	10
	NO	0
FORESTLAND: Does the application include conservation practices to improve Forestland?	YES	15
	NO	0
FORESTLAND: Is the land in the EQIP application suitable for longleaf pines or hardwoods to be planted?	YES	15
	NO	0
GRAZING LAND: Does this application include cropland/hayland being converted to permanent pasture for livestock production?	YES	10
	NO	0

Section: General Program Questions *

Question	Answer Choices	Points
GRAZING LAND: Does this application treat Smutgrass, Cogongrass, or Kudzu on offered EQIP acres to promote optimal forage production within a livestock operation by implementing Practice 315 - Herbaceous Weed Control?	YES	10
	NO	0
GRAZING LAND: Does this application include practices for improving grazing land?	YES	15
	NO	0
WILDLIFE: Will treatment improve the wildlife habitat for native species?	YES	10
	NO	0
WILDLIFE: Is this application offered under the wildlife fund pool only?	YES	10
	NO	0

Section: BF and SD Questions

Question	Answer Choices	Points
Does the applicant meet the NRCS definition of a veteran farmer or rancher (VFR)?*	YES	15
	NO	0
Did the applicant participate in the CRP Transition Incentives Program (TIP), and has the land in the EQIP application come out of CRP within the last 2 years?*	YES	5
	NO	0

Section: Concentrated Flow Questions

Question	Answer Choices	Points
Are EQIP acres located in a 303D area?*	Yes	--
	No	--
Does application include Practice 410-Grade Stabilization Structure or Practice 356-Dike?*	YES	--
	NO	--

Section: CPA, DIA, CEMA Question*

Question	Answer Choices	Points
Does the application includes a Conservation Planning Activity (CPA), Design and Implementation Activity (DIA) and/or Conservation Evaluation and Monitoring Activity (CEMA)?*	YES	--
	NO	--

Section: NWQI Questions

Question	Answer Choices	Points
Does the PLU intersect the NWQI national layer of watersheds by 50% or greater?*	Yes	--
	No	--
The practices in the application are predominantly practices which are identified in the NWQI watershed assessment.*	YES	--
	NO	--

Section: On-Farm Energy Questions

Question	Answer Choices	Points
Does the applications containing energy efficiency practices?*	The application contains two or more core practices.	--
	The application contains at least one core practice and additional supporting practices.	--
	The application contains only supporting practices.	--

Section: Regenerative Pilot Program Question

Question	Answer Choices	Points
The applicant must be willing to develop a whole farm plan and include soil testing by planning CEMA 216 in the first and last year of the contract.*	YES	--
	NO	--

Section: High Tunnel, Organic, Urban Agriculture, and Small Ruminant Questions

Question	Answer Choices	Points
Does the PLUs intersect the MS Urban Ag Initiative Layer?*	Yes	--
	No	--
Does the EQIP schedule of operations include implementation of one soil health or enhancing practice that addresses soil tilth, crusting, water infiltration, organic matter, compaction, etc.?*	YES	--
	NO	--
Does the EQIP schedule of operations include implementation of nutrient management for management of soil fertility, plant nutrients, and soil amendments?*	YES	--
	NO	--
Will the High Tunnel System will be used to produce multiple crops throughout different growing seasons?*	YES	--
	NO	--
Is at least one of the following practices (Practice 314-Brush Management or Practice 315-Herbaceous Weed Control) being planned to address noxious or invasive species?*	YES	--
	NO	--

Section: WCMP Questions

Question	Answer Choices	Points
Is there more than one groundwater well on the offered acres?*	YES	--
	NO	--
Will the proposed surface water irrigation practices reduce current groundwater use on offered acres or if not using ground water irrigation, prevent a new ground water well from being drilled on offered acres?*	YES	--
	NO	--
Is there a flowmeter ready stand/dogleg on the offered acres?*	YES	--
	NO	--

Section: WLFW - Northern Bobwhite Quail Questions

Question	Answer Choices	Points
----------	----------------	--------

Section: WLFW - Northern Bobwhite Quail Questions

Question	Answer Choices	Points
Does the PLU intersect the NBI geodata layer?*	Yes	--
	No	--
The application includes at least one of the applicable core practices or completes a conservation system that supports core practices documented as already applied on the land under contract.*	YES	--
	NO	--
The practices in the application are predominantly practices which contribute to the establishment, improvement, or maintenance of NBI actions on the PLUs as described in Northern Bobwhite Grasslands, & Savannas Framework.*	YES	--
	NO	--

Section: WLFW - Yazoo Darter Questions

Question	Answer Choices	Points
Does the PLU (s) intersect the MS Yazoo Darter layer?*	Yes	--
	No	--

Survey: Resource Questions

Section: BF, LR, and SD Questions *

Question	Answer Choices	Points
Will at least one field be planned to 340 and 329? (No disking between harvest and planting of the following crop)*	YES	2
	NO	0
Will 327 conservation cover be established on 1% of row crop acres?*	YES	2
	NO	0
Will 386 field border be planned on at least one field?*	YES	2
	NO	0
Will 590 Precision Nutrient Management be planned? *	YES	2
	NO	0
Does the applicant have an active CNMP?*	YES	2
	NO	0
Will additional grazing cells be created by subdividing an existing field with a cross fence? *	YES	2
	NO	0
Will 512 Overseeding legumes be planned in a minimum of one field?*	YES	2
	NO	0
Will landuse be converted from row crop to trees?*	YES	2
	NO	0
Will landuse be converted from forages to trees?*	YES	2
	NO	0

Section: BF, LR, and SD Questions *

Question	Answer Choices	Points
Will 10% of the converted acres be established to shrubs? *	YES	2
	NO	0

Section: Concentrated Flow Questions

Question	Answer Choices	Points
Does this application address a Grade Stabilization Structure (410) that has failed or has met the practice life expectancy (e.g. not a new site)?*	YES	2
	NO	0
Is an ephemeral gully (can be farmed across) being addressed?*	YES	2
	NO	0
Is a classic gully (has to be farmed around) being addressed?*	YES	2
	NO	0
Is the drainage area less than 40 acres?*	YES	1
	NO	0
Is the drainage area greater than or equal to 40 acres?*	YES	1
	NO	0
Will a 40' minimum of 386 field boarder be established around the entire field?*	YES	--
	NO	--
Will grade control be greater than 5ft?*	YES	1
	NO	0

Section: CPA, DIA, CEMA Questions

Question	Answer Choices	Points
Is 101 and 102 planned?*	YES	8
	NO	0

Section: NWQI Questions

Question	Answer Choices	Points
Do the PLUs intersect the critical source areas identified in the NWQI watershed assessment?*	Yes	2
	No	0
Will the planned practices improve water quality in priority water bodies?*	YES	2
	NO	0

Section: On-Farm Energy Questions

Question	Answer Choices	Points
Is the application for a TSP prepared CEMA Agricultural Energy Assessment (228)?*	YES	1
	NO	0

Section: On-Farm Energy Questions

Question	Answer Choices	Points
Is participant an owner and/or operator of an existing CAFO operation needing to improve operations in order to meet regulatory requirements?*	YES	2
	NO	0
Is the applicant planning to apply Energy Conserving Enhancements within the next two years?*	YES	2
	NO	0

Section: High Tunnel, Organic, Urban Agriculture, and Small Ruminant Questions

Question	Answer Choices	Points
Does the EQIP schedule of operations include practices with the intent of increasing habitat for pollinators, beneficial insects, or both?*	YES	2
	NO	0
Does the EQIP schedule of operations include practices that will improve the efficiency of an existing irrigation system, conserve soil moisture, or both?*	YES	2
	NO	0
Will applicant plan 340-Cover Crop?*	YES	4
	NO	0
Is basal area less than 70 sq. ft. per acre according to the Woodland Grazing Site Evaluation Tool?*	YES	2
	NO	0
Will treatment result in adequate watering facility in each grazing cell or create additional grazing cells?*	YES	2
	NO	0

Section: Regenerative Pilot Program Questions

Question	Answer Choices	Points
Will 590 be planned on grazing lands?*	YES	2
	NO	0
Will at least one field be planned to 340 and 329? (No disking between harvest and planting of the following crop.) *	YES	2
	NO	0

Section: WCMP Questions

Question	Answer Choices	Points
Are the majority of the offered acres in Zone 1 or 2 of the Mississippi Delta Alluvial Aquifer (red or yellow on map)?*	YES	2
	NO	0
Has a forming/shaping practice (460/462/466) already been applied to all offered acres to address irrigation efficiency or ponding and flooding, either through a previous EQIP contract or by applicant on his/her own?*	YES	2
	NO	0
Is there an existing 436 on the offered acres that was installed either through a previous EQIP contract or by applicant on his/her own? *	YES	2
	NO	0

Section: Wildlife Habitat Questions

Question	Answer Choices	Points
Is at least one of the following practices (327, 420, 338, 386, 390, 422, 612 (shrubs only), 645, 647, 649, or 666) planned?*	YES	2
	NO	0
Will only native forbs/grasses/shrubs and/or approved legumes be planted to promote early successional vegetation or wildlife habitat plantings?*	YES	2
	NO	0
327 and/or 420 for pollinators or permanent pollinator habitat will be establish on a row crop land unit.*	YES	2
	NO	0
Is property adjacent to or within a mile of public land managed for wildlife (e.g., National Forest, WMA, NWR, military installation)?*	YES	2
	NO	0
Will non-native, invasive species be treated sufficiently?*	YES	2
	NO	0
Will a fish passage barrier be removed from a stream designated as critical habitat or contain known T&E aquatic species?*	YES	2
	NO	0
Will a new shallow water area be constructed for waterfowl habitat that will include practice 587, 646 or 644?*	YES	2
	NO	0

Section: WLFW - Northern Bobwhite Quail Questions

Question	Answer Choices	Points
Select the answer that MOST ACCURATELY represents the PLUs in the assessment.*	Any PLU intersects a priority area identified by Mississippi for bobwhite or private lands specifically managed for Northern Bobwhite (NOBO),	3
	Any PLU is within 5 miles of protected lands (state or federal conservation lands, conservation easement, military installation),	2
	Any PLU is planned to support terrestrial wildlife habitat development.	--
Does the PLU directly benefit NOBO or other declining grasslands wildlife or pollinators?*	PLU is within 3 miles of any documented terrestrial state or federal T&E, or candidate for listing and/or declining bird species (e.g. Bachman's sparrow, prairie warbler, bobolink, eastern or western meadowlark, any shrike species, grassland sparrow, common ground dove, upland sandpiper)	3
	PLU is within 5 miles of occupied NOBO site or regularly managed suitable habitat	2
	PLU is or will be > 90% native grasslands, forbs, or savannas and/or will include milkweed establishment or management	1

Section: WLFW - Northern Bobwhite Quail Questions

Question	Answer Choices	Points
Do the planned practices include actions prioritized to restore native habitat?*	A prescribed burn during the growing season is planned on the PLU	6
	A prescribed burn in any season is on the PLU and/or pollinator forage plant materials plantings are planned	5
	At least one of the following priority conservation practices is planned on the PLU: timber stand improvement or brush management	4
	At least one of the following practices is planned on the PLU: forage and biomass planting using only native seed mixes or range planting using only native seed mixes	3
	At least one practice is planned that provides woody vegetative cover for wildlife use: wildlife habitat planting, hedgerow planting, windbreak/shelterbelt establishment, tree/shrub establishment, or field borders	2
	At least one of the following practices is planned on the PLU: invasive species control or conservation cover	1

Section: WLFW - Yazoo Dater Questions

Question	Answer Choices	Points
Will at least one of the planned practices remove or modify an in-stream obstruction (perched culvert, farm road crossing, etc.) that is creating a barrier to fish passage?*	YES	3
	NO	0
Will at least one of the planned practices reduce sedimentation and improve stream water quality through the implementation of erosion control measures or by preventing livestock access to streams? (Application must include one of the following practices: 342, 350, 386, 382, 578, 390, 391, 393, 410, 422, or 580.)*	YES	3
	NO	0

Section: Animal Waste Questions

Question	Answer Choices	Points
Does the applicant's operation need a pump (533), animal mortality facility (316), or waste storage facility (313)?*	YES	25
	NO	0
Will an animal mortality facility be utilized?*	YES	6.25
	NO	0
Is this an expanding CAFO operation?*	YES	6.25
	NO	0
Does applicant have a current Manure Management Plan?*	YES	6.25
	NO	0
Is participant applying for practices recommended by a CAP 102 plan?*	YES	6.25
	NO	0

Section: Cropland Questions

Question	Answer Choices	Points
Will treatment result in all active gullies being controlled?*	YES	11.33
	NO	0
Will treatments result in land use conversion from row crop to hay?*	YES	11.33
	NO	0
Will treatment include 580 Streambank and Shoreline Protection? *	YES	11.33
	NO	0
Will treatments result in land use conversion?*	YES	11.33
	NO	0
Will treatment include one of the following practices? (Grade Stabilization Structure - 410 or Streambank & Shoreline Protection - 580)*	YES	11.33
	NO	0
Will the treatment include 410 Grade Stabilization Structure that reduces classic gully erosion by 99 tons or more per acre per year?*	YES	11.33
	NO	0
Will treatment include 410 Grade Stabilization Structure or 587 Structure for water control (pipe scenario)?*	YES	8.5
	NO	0
Will the treatment include 410, Grade Stabilization Structure that reduces classic gully erosion by 99 tons or more per acre per year?*	YES	8.5
	NO	0
Will application include 449, Irrigation Water Management?*	YES	8.5
	NO	0
Will treatment result in land use conversion?*	YES	8.5
	NO	0
Does applicants land need erosion control by installing a pipe or check dam (410) for erosion control? *	YES	25
	NO	0
Has application been deferred for 2 or more years? *	YES	17
	NO	0
Will the treatment include one or more of the following practices? (Sediment basin-350, Grade stabilization structure-410, Structure for water control-587, Terraces-600)*	YES	17
	NO	0
Will treatment result in soil savings of 50 tons or greater in active gullies being controlled?*	YES	8.5
	NO	0
Will treatments result in HEL land use conversion? *	YES	8.5
	NO	0
Will the treatment include one of the following practices? (Grade Stabilization Structure-410 or Structure for Water Control-587) *	YES	8.5
	NO	0
Will treatment result in soil savings of 24-49 or 50 tons in active gullies being controlled?*	YES	8.5
	NO	0
Will the treatment include a Grade Stabilization Structure-410? *	YES	11.33
	NO	0

Section: Cropland Questions

Question	Answer Choices	Points
Is no-till or reduced tillage used on this field?*	YES	11.33
	NO	0
Has a cover crop been planted on this field the last 2 consecutive years? *	YES	11.33
	NO	0
Will treatment result in all active gullies being controlled?*	YES	8.5
	NO	0
Will treatment reduce classic gully erosion > or = to 49 tons/year?*	YES	8.5
	NO	0
Does applicant practice a no till or minimal till system? *	YES	8.5
	NO	0
Will treatment address soil loss over 10 tons per year?*	YES	8.5
	NO	0
Will the treatment address soil loss over 50 tons per year? *	YES	8.5
	NO	0
Will the application include 340 Cover Crops to be established? *	YES	8.5
	NO	0
Does applicant practice (No till or Minimum till) system and will implement 340 Cover crop?*	YES	8.5
	NO	0
Will the application include practices that target active erosion? *	YES	11.33
	NO	0
Will the treatment reduce classic gully erosion by 249 tons or less?*	YES	11.33
	NO	0
Will the treatment reduce classic gully erosion by 249 tons or more?*	YES	11.33
	NO	0
Will treatment include 410 Grade Stabilization Structure, OR 587 Structure for Water Control (pipe scenario)?*	YES	11.33
	NO	0
Will treatment include 410 Grade Stabilization Structure that reduces classic gully erosion by 99 tons or more per year?*	YES	11
	NO	0
Will the treatment include 580 Streambank Stabilization?*	YES	11
	NO	0
Will this application address soil loss of 50 - 300 tons? *	YES	11.33
	NO	0
Will this application address soil loss of 5 - 50 tons? *	YES	11.33
	NO	0
Will classic gully erosion be reduced by > 50 tons/yr.?*	YES	6.25
	NO	0

Section: Cropland Questions

Question	Answer Choices	Points
Will classic gully erosion be reduced by 20 - 50 tons/yr.?*	YES	6.25
	NO	0
Will classic gully erosion be reduced by < 20 tons/yr.? *	YES	6.25
	NO	0
Will plan include one of the following practices (410, 580)? *	YES	6.25
	NO	0
Will the applicant have a deferred application? *	YES	11.33
	NO	0
Will classic gully erosion be reduced by > 50 tons/yr.?*	YES	8.5
	NO	0
Will treatment reduce classic gully erosion by 20 - 50 tons/yr.? *	YES	8.5
	NO	0
Will treatment reduce classic gully erosion by <20 tons/yr.?*	YES	8.5
	NO	0
Will plant include one of the following practices (410, 580)?*	YES	8.5
	NO	0
Will treatment include 340 - Cover Crop? *	YES	11.33
	NO	0
Will treatment include one of the following practices? (Grade Stabilization Structure - 410; Streambank & Shoreline Protection - 580; or Structure for Water Control - 587)*	YES	11.33
	NO	0
Does the practice reduce erosion by 99 tons or less per acre per year?*	YES	11.33
	NO	0
Does the practice reduce erosion by 100 tons or more per acre per year?*	YES	11.33
	NO	0

Section: Forestry Questions

Question	Answer Choices	Points
Will treatment include 612 tree/shrub planting? *	YES	11
	NO	0
If trees are planted, will hardwoods be the majority planned?*	YES	11
	NO	0
Will this treatment include Practice 338 for management in pine stands? *	YES	11
	NO	0
Will Practice 315 Herbaceous Weed Control be applied to combat kudzu?*	YES	11
	NO	0

Section: Forestry Questions

Question	Answer Choices	Points
Will Practice 410 Grade Stabilization Structure be planned? *	YES	11
	NO	0
Will this treatment include Practice 666 - Forest Stand Improvement?*	YES	11
	NO	0
Does this application include practices for a site prep and tree planting?*	YES	11
	NO	0
Is this application for prescribed burning on a pine stand that has been thinned within the last 3 years?*	YES	11
	NO	0
Will the treatment include 612, Tree Establishment and 490 Site Preparation? *	YES	8.25
	NO	0
Will the treatment include 410, Grade Stabilization Structure that reduces classic gully erosion by 99 tons or more per acre per year?*	YES	8.25
	NO	0
Will this treatment include 666, Forest Stand Improvement? *	YES	8.25
	NO	0
Will treatment of 338, Prescribed Burning AND 394, Firebreaks be planned on a mature pine stand?*	YES	8.25
	NO	0
Does the applicants land need QVM (666), or tree planting (612), or forest site prep (490), or prescribed burning (338)? *	YES	25
	NO	0
Does this application consist of reforestation of a stand? *	YES	16.5
	NO	0
Will this treatment include Practice 666 - Forest Stand Improvement?*	YES	16.5
	NO	0
Will treatment include 315 Herbaceous Weed Treatment (Kudzu or Cogon grass control)?*	YES	11
	NO	0
Will treatment include 338 Prescribed Burning?*	YES	11
	NO	0
Will 612 tree planting be implemented on fresh cutover?*	YES	11
	NO	0
Will site prep be included in the contract?*	YES	11
	NO	0
Will this practice(s) complete a resource management system (RMS) on this conservation treatment unit?*	YES	11
	NO	0
Will treatments address soil loss over 10 tons per year? *	YES	8.25
	NO	0
Will treatment address soil loss of over 50 tons per year?*	YES	8.25
	NO	0

Section: Forestry Questions

Question	Answer Choices	Points
Will treatment include 315 Herbaceous Weed Treatment to address kudzu or cogon grass? *	YES	8.25
	NO	0
Does this application consist of reforestation of a stand?*	YES	11
	NO	0
Has the application been deferred 2 or more years?*	YES	11
	NO	0
Will the treatment include 315 Herbaceous Weed Control, to control invasive species for two or more consecutive years on the same acres?*	YES	8.25
	NO	0
Will treatment include 315 Herbaceous Weed Treatment to address kudzu or cogon grass?*	YES	16.5
	NO	0
Will this application address soil loss of over 20 tons per year?*	YES	16.5
	NO	0
Is this open land tree planting?*	YES	11
	NO	0
Is the land offered for planting under 25 acres?*	YES	11
	NO	0
Will this treatment include one of the following; 338 Prescribed Burning, 410 Grade Stabilization Structure, 580 Streambank and Shoreline Protection, 666 Forest Stand Improvement?*	YES	11
	NO	0
Will plan include practices 490 and 612? *	YES	6.25
	NO	0
Will plan include practices 666 - QVM or practice 338 - Burning in a pine stand after thinning?*	YES	6.25
	NO	0
Does plan include practice 315 for Kudzu control?*	YES	6.25
	NO	0
Will this treatment include conversion of cropland, hayland, or pastureland to timberland? *	YES	6.25
	NO	0
Will ground chemical site prep be applied?*	YES	11
	NO	0
Will Aerial site prep be applied?*	YES	11
	NO	0
Is the site index of the predominant soil map unit >70 and < 90 for tree planting?*	YES	11
	NO	0
Will plan include practices 490 and 612? *	YES	8.25
	NO	0
Will plan include practices 666 - QVM or practice 338 - Burning in a pine stand after thinning?*	YES	8.25
	NO	0

Section: Forestry Questions

Question	Answer Choices	Points
Will plan result in the control of Kudzu?*	YES	8.25
	NO	0
Will plan include conversion of cropland, hayland, or pastureland to timberland?*	YES	8.25
	NO	0
Is the land offered at least 10 acres? *	YES	11
	NO	0
Does this application include Herbicide Release and Tree Planting? *	YES	16.5
	NO	0
Does this application include a burn on a pine stand that has been thinned in the last three years?*	YES	16.5
	NO	0

Section: Grazing Lands Questions

Question	Answer Choices	Points
Will treatment include Practice 512 for overseeding legumes?*	YES	11
	NO	0
Will treatment include Practice 512 for establishing native grasses in a grazing system?*	YES	11
	NO	0
Will treatment include one or more of the following practices targeting sedimentation? (GSS-410, S&S Protection 580) *	YES	11
	NO	0
Will treatment include Practice 614 Watering Facility or 378 Pond?*	YES	11
	NO	0
Will treatment include Practice 382 fence to implement rotational grazing?*	YES	11
	NO	0
Will the treatment include Practice 410 Grade Stabilization Structure?*	YES	11
	NO	0
Is this application for Heavy Use Areas in high traffic locations (gates or feeding pads)? (These points are not to be given for Heavy Use Areas associated with water facilities.)*	YES	11
	NO	0
Is this application for practices on a tract of land that includes an already functioning cross fence system or includes cross fencing to create multiple grazing cells as part of the intended Conservation Plan?*	YES	11
	NO	0
Will treatment include 378, Pond, or 614, Watering Facility, and 382 Fence? *	YES	8.25
	NO	0
Will the treatment include 410, Grade Stabilization Structure that reduces classic gully erosion by 99 tons or more per acre per year? *	YES	8.25
	NO	0
Will the treatment include Cross Fencing to create two or more grazing cells?*	YES	8.25
	NO	0

Section: Grazing Lands Questions

Question	Answer Choices	Points
Is this application eligible in only one ranking pool?*	YES	8.25
	NO	0
Does the applicants land need a pond (378), or watering facility (614), or pipeline (516), or fence (382), or Pipe/check dam (410)?*	YES	12.5
	NO	0
Does applicants land need weed control (315), or grass/legume planting (512), or critical area planting (342)?*	YES	12.5
	NO	0
Will treatment include Practice 614 Watering Facility and 382 Cross fence?*	YES	16.5
	NO	0
Has the application been deferred 2 or more years?*	YES	16.5
	NO	0
Will treatment include Practice 512-Pasture & Hay Planting?*	YES	8.25
	NO	0
Will treatment include 528 Prescribed Grazing?*	YES	8.25
	NO	0
Will the treatment include three or more of the following? (Fence, 516 Livestock Pipeline, 561 Heavy Use Area, 614 Watering Facility, or 642 Well)*	YES	8.25
	NO	0
Will treatment include 410 Grade Stabilization Structure? *	YES	8.25
	NO	0
Will contract include 378 Pond or new 614 Watering Facility?*	YES	11
	NO	0
Will treatment include Practice 614 Watering facility? *	YES	8.25
	NO	0
Will there be an additional Heavy use area installed - Practice 561?*	YES	8.25
	NO	0
Will the treatment include one or more of the following practices targeting sedimentation? (Sediment basin-350, Grade stabilization structure-410, Structure for water control-587, Terraces-600)*	YES	8.25
	NO	0
Will there be an additional grazing cell added?*	YES	8.25
	NO	0
Will treatment include 614 Watering Facility and 382 Fence?*	YES	8.25
	NO	0
Will treatments address soil loss over 10 tons per year?*	YES	8.25
	NO	0
Will treatments address soil loss over 50 tons per year?*	YES	8.25
	NO	0
Will the treatment include 315 Herbaceous Weed Control, or 314 Brush Management to control undesirable plant species?*	YES	8.25
	NO	0

Section: Grazing Lands Questions

Question	Answer Choices	Points
Will treatment include Practice 614 Watering Facility, 378 Pond, or 561 Heavy Use Area?*	YES	8.25
	NO	0
Has the application been deferred 2 or more years?*	YES	8.25
	NO	0
Will the application include 382 cross fence?*	YES	8.25
	NO	0
Are fenced acres established in predominately warm season perennial grasses AND planning to use existing well, community water, or ponds as sole source of water for livestock?*	YES	11
	NO	0
Will this application address soil loss of 5 - 50 tons per year? *	YES	11
	NO	0
Will this application address soil loss of 5 - 100 tons per year?*	YES	11
	NO	0
Will treatment include practice 614 Watering Facility and/or 561 Heavy Use Area Protection? *	YES	11
	NO	0
Will treatment include a cross fence?*	YES	11
	NO	0
Will treatment include one or more of the following practices targeting sedimentation; 410 Grade Stabilization Structure, 561 Heavy Use Area Protection, 580 Streambank and Shoreline Protection?*	YES	11
	NO	0
Will plan include practice 614 - Watering Facility?*	YES	6.25
	NO	0
Will plan include practice 512 - Interseeding Legumes into an existing pasture?*	YES	6.25
	NO	0
Will plan include construction of a new cross fence?*	YES	6.25
	NO	0
Does plan include one or more practice targeting sedimentation (410, 580)?*	YES	6.25
	NO	0
Will plan include practice 512 - Interseeding Legumes into an existing pasture?*	YES	8.25
	NO	0
Will plan include one or more of the following practices targeting sedimentation (410, 580)? *	YES	8.25
	NO	0
Will the treatment include one or more of the following practices targeting sedimentation? (410 - Grade Stabilization Structure, 561- Heavy Use Area, 614 - Watering Facility)*	YES	8.25
	NO	0
Will treatments result in land use conversion? *	YES	8.25
	NO	0
Is this application for Heavy Use Areas in high traffic locations (gates or feeding pads)? (These points are not to be given for Heavy Use Areas associated with water facilities.)*	YES	8.25
	NO	0

Section: Grazing Lands Questions

Question	Answer Choices	Points
Is this application for weed treatment or the introduction of perennial grasses or legumes, intended to improved pasture for grazing production to meet the pastures potential for grazing Animal Unit capacity?*	YES	8.25
	NO	0
Is this application for practices on a tract of land that includes an already functioning cross fence system or includes cross fencing to create multiple grazing cells as part of the intended Conservation Plan?*	YES	8.25
	NO	0

Section: Reserved Questions

Question	Answer Choices	Points
