

Wisconsin FY27 Conservation Stewardship Program (CSP)

5/21/2026

Use on the following funding categories: Ag -Regenerative Pilot Program, All Area Ag, Ag -Beginning Farmer, Organic

Prioritization is based on the lowest priority land use between cropland, farmstead and pasture as applicable, on the operation. For example, if crop is “high” priority but pasture “medium” priority, the entire application will be considered “medium” priority.

Applicant Name:	County:
Application Number:	Field Office:
Evaluator Name:	Date:
Farmstead, Cropland & Pasture (must answer)	
1. If Livestock are part of operation, they have limited access to sensitive areas. ☐ Not applicable (<i>proceed to Cropland Question 1</i>) ☐ YES (<i>Proceed to Cropland & Pasture sections. If farmstead is only land use application is high priority <end prioritization></i>) ☐ NO LOW (<i>low priority <end prioritization></i>)	
CROP (skip if no crop on the operation)	
1. At least 66% of the acres planted to annual row crops (corn, soybeans, vegetables, etc.) follow the general criteria in the Residue and Tillage Management, No-Till (329) standard. ☐ YES HIGH (<i>high priority <end crop review></i>) ☐ NO Go to question #2 2. At least 50% of acres planted include perennial crops. ☐ YES HIGH (<i>high priority <end crop review></i>) ☐ NO Go to question #3 3. At least 95% of the crop acres follow a nutrient management plan according to the Nutrient Management (590) standard and of those acres 33% of the row crops are utilizing a cover crop or no till. (Use the 590 checklist or other approved method for verification) ☐ YES HIGH (<i>high priority <end crop review></i>) ☐ NO Go to question #4 4. At least 30% of acres planted include annual or perennial forages (grasses/legumes), perennial crops, small grains, or the use of cover crops. ☐ YES MEDIUM (<i>medium priority <end crop review></i>) ☐ NO LOW (<i>low priority <end crop review></i>)	
PASTURE (skip if no pasture on the operation)	
1. The applicant has kept written grazing records that includes the number and type of animals in the grazing system, movement dates, rest periods, and locations OR Applicant is following an Approved grazing plan. ☐ YES HIGH (<i>high priority <end pasture review></i>) ☐ NO Go to question #2	

Attachment A: Agland Workload Prioritization Tool

2. Applicant has provided verbal or written documentation to allow NRCS to document stocking rates are less than 1.5 Animal Units per acre.

- ☐ YES **MEDIUM** (medium priority <end pasture review>)
☐ NO **LOW** (low priority <end pasture review>)
